HERE IS YOUR REMEDY!

HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS AFTER 43 YEARS SUFFERING.

Extract of a Letter from Mr William Galpin of 70, St Mary's Street, Weymouth, dated May 15th, 1851

To Professor Holloway

SIR,—At the age of 18 my wife (who is now 61) caught a violent cold which settled in her legs and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your advertisements, and advised her to try your Pills and Ointment; and as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago and strange to relate, is now in good health. Her legs are painless, without seam or scar, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

(Signed) WILLIAM GALPIN.

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS STANDING.

Copy of a Letter from Mr William Abbs, Builder of Gas Ovens, of Rushcliffe, near Huddersfield, dated May 31...

To Professor Holloway

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works, accompanied by scorbutic symptoms. I had recourse to a variety of medical advice without deriving any benefit, and was even told that the leg must be amputated, yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr W. P. England, Chemist, 13, Market street, Huddersfield.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a letter from Mr Frederick Turner, of Penshurst, Kent dated December 13th 1850.

To Professor Holloway

DEAR SIR,—My wife had suffered from bad breasts for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends.

FREDERICK TURNER.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs	Corns (Soft)	Scalds
Bad Breasts	Cancers	Sore Nipples
Burns	Contracted and Stiff Joints	Sore-throats
Bunions	Elephantiasis	Skin-diseases
Bite of Moschetoes and Sand Flies	Fistulas	Scurvy
Coco Bay	Gout	Sore-heads
Chiego-foot	Glandular Swelling	Tumours
Chilblains	Lumbago	Ulcers
Chapped hands	Piles	Wounds
	Rheumatism	Yaws

JAMES FREDERICK FOSTER,

MANUFACTURER OF

Ratchet and Spiral Trusses,

Washington Street, 467, BOSTON.

ALL the various approved trusses constantly for sale. Ladies waited on by Mrs Caroline Foster, who has had twenty years experience in the business.

Strangers in the city will please take notice the odd numbers and the even numbers are on opposite sides of the street, it being 416 opposite to the subscriber's residence 467, where he will keep a full supply of Ready Made Trusses for Gentlemen and Ladies, Youths and Infants. Abdominal Supporters of five or six different kinds and such as Hull's, Chapin's Spinal, Cutter's, Fitch's Ingalls, &c., &c.

Ladies waited upon by Mrs Caroline D Foster at the above place.

The following certificate from Dr John C. Warren of Boston, was given to years since, but will last forever.

BOSTON January 7 1835

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Beath. After some months of observation of his work I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren and to the public as a person well fitted to supply their wants in regard to those important articles.

JOHN C WARREN M D, Boston

CERTIFICATE. The following certificate is from Professor Stuart, of Andover Theological Seminary.

The undersigned having occasion to employ Mr J Frederick Foster, of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr Foster's success in the manufacture, and adapting them to the body giving ease, and comfort to the wearer, surpass (as far as our experience goes,) any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendations of that eminent surgeon, Dr J C Warren, as a sufficient guaranty for all, who may favor Mr F, that his manufactures will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation.

AN ORDINANCE

Providing for the Regulation of the port of Bangor

SEC. 1—Be it ordained, by the Mayor, Aldermen and Common Council of the City of Bangor in City Council assembled. That there shall be annually chosen by the City Council a suitable person as Harbor Master who shall have the care and regulation of said port or Harbor, and of vessels and rafts therein

SEC. 2—Be it further ordained, That the Harbor Master shall provide himself with a card upon which shall be printed the rules and regulations of said Port, a copy of which shall be delivered to the proper officer of each vessel and steamer of not less than fifty tons burthen, entering said Port.

SEC. 3—Be it further ordained, That the Harbor Master shall, as soon as practicable after the arrival of any vessel or steamer in Port board her for the purpose of exhibiting the regulations of the port receiving his fees and directing said vessel where to lay, if necessary. He shall keep a book in which he shall, each day, enter the names of the vessels arriving to and departing from said port, and the names of the masters thereof and the tonnage of each of said vessels, and from what port said vessels sailed or to what port they may be bound, and their cargoes of imports and exports as accurately as may be ascertained which said book at the end of the year shall be delivered to the City Clerk for safe keeping. He shall also keep near the Ferry way on the City Point an office open during business hours from the fifteenth day of April to the first day of December. He shall also keep a boat suitable for boarding vessels in the river.

SEC 4—Be it further ordained, That no vessel, steamboat or raft shall be allowed to anchor or lay in the main channel of the river between the Bangor Bridge and the north line of Hampden, so as to obstruct the free passage of vessels boats or rafts up and down the river.

SEC 5—Be it further ordained, That no vessel boat or raft, shall be allowed to anchor or lay between the mouth of the Kenduskeag stream and the Kenduskeag Bridge in such a manner as to obstruct the free passage of vessels boats and rafts up and down said stream.

SEC 6—Be it further ordained That no vessel boat or raft shall anchor or lay in the usual track of the Ferry Boats between Bangor and Brewer in such a manner as to obstruct their passage ... or obstruct the free passage of steamboats by their usual track to and from their usual wharfs.

SEC 7—Be it further ordained That if any owner or owners or master of any vessel or any other person shall cast or throw or cause or suffer to be cast or thrown from their vessel or from any other place any stone sand or other ballast or any other thing into the channel of said river or stream, whereby the passage of the same may be injured, he or they shall forfeit and pay for each offence a sum not less than five nor more than twenty dollars.

SEC 8—Be it further ordained That if any person or persons shall cast or throw or cause or suffer to be cast or thrown from any wharf or dock in said port of Bangor into the water of said river or stream any stone sand cinders, or any other thing which may decrease the depth of water at said wharf or dock he or they shall forfeit and pay for each offence a sum not less than five nor more than twenty dollars.

SEC 9—Be it further ordained That vessels shall not lay more than one tier deep from City Point to the Bangor Bridge.

SEC 10—Be it further ordained, That the Harbor Master is hereby authorized and it shall be his duty to remove or cause to be removed any vessel or boat from any wharf in said port at the request and direction of the owner of said wharf; and if any vessel boat or raft shall anchor or lie contrary to any of the regulations in any of the preceding sections said Harbor Master shall forthwith give notice to the owner or master thereof or the person having the care of the same, to remove the same and if the said notice be not complied with without delay the Harbor Master shall make or cause said removal at the expense of said vessel, boat or raft.

SEC 11—Be it further ordained That the master or owner or owners of any vessel boat or raft, or any other person who shall violate any of the provisions of this ordinance shall for each offence forfeit and pay a sum of not less than five dollars nor more than twenty dollars and it shall be the duty of the Harbor Master immediately upon the violation of any of said provisions to cause the person or persons offending to be prosecuted for the penalty or penalties thereby incurred.

SEC 12—Be it further ordained, That the Harbor Master shall be entitled to receive from each vessel and steamer of not less than fifty tons burthen arriving in said port of Bangor a fee of one dollar—Provided, however that no fee shall be required of any vessel or steamer more than once during the season of open navigation at said port.

SEC 13—Be it further ordained, That any ordinance of said city inconsistent with the provisions of this ordinance be and the same is hereby repealed.

SEC 14—Be it further ordained That the Harbor Master before entering upon his duties shall give bond to the city in the penal sum of three hundred dollars conditioned for the faithful discharge of his duties.

SEC 15—Be it further ordained, That the Harbor Master shall return to the City Clerk, in the month of January, in each year, an account of all monies received from vessels entering this port, as fees. [Passed April 11, 1853]

Bank Note Protection.

A new plan to prevent Fraud by the Alteration of Bank Notes from low to higher denominations.

The Notes are divided into two classes

CLASS FIRST, embraces the denominations of *one two three four and five dollars*. These are distinguished by strips at the *right* ends of the notes, composed of *geometric lathe work* and running towards the centre, the number of strips corresponding with the amounts of the notes. Thus one strip for one dollar two strips for two dollars, and so on, and upon the centre of these strips a large figure readily seen designates the denomination of each note. In this class of notes there are no borders on the *left* ends—which are occupied by vignettes and other work. The President's name will be placed under and near the *right* end strip work on all notes of this class, and that of the Register or some other name above it, thus protecting the strip work from alteration—no place being left for adding another strip either above or below the signatures.

CLASS SECOND, embraces the denominations of *ten twenty fifty one hundred and five hundred dollars*. On these the whole arrangement is reversed. The strips of lathe work (different from those used upon the other class of notes) commence at the *left* ends and run towards the centre, the vignettes and other work being upon the *right*. ... the Cashier's name is placed under the strip work and that of the Register directly over it. ... being separated by one strip on a ten dollar note ... two on a twenty ... three on a fifty ... four on a hundred ... dollar note presenting a perfect contrast between the two classes of notes.

Any person acquainted with the principle will at once perceive that any alteration of any one of these notes in either class from one denomination to another ... The plan is simple and easily comprehended almost at a glance, from an examination of the notes; for although so many lines are required to describe it in words the pictorial description is very short and easily understood and remembered. The inventor JAMES ATWATER Esq of New Haven Conn has secured his invention by caveat entered at the Patent Office at Washington and has made an arrangement with DANFORTH WRIGHT & CO exclusively for its use upon Bank Notes.

Besides the protection against the *alteration* of the denominations of Bank Notes afforded to banks and the public by this plan a very great security *against counterfeiting*, is also afforded by the free use of the *geometric lathe work* of which the borders are composed and which cannot be successfully imitated either with a ... or ... with the graver.

IMPORTANT TO ALL

WHO USE

Steam as a Motive Power,

AND DESIRE

Safety and Great Economy.

AN opportunity is now offered to all whom it may concern to secure the exclusive right of manufacturing using and vending in States and Counties

IRVING'S PATENT

Circulating Safety Steam Boiler,

For Stationary Engines Locomotives, Marine Engines on River Lake and Ocean Steamers &c. The advantages of this Boiler over all others in use are

1st—ENTIRE SAFETY FROM EXPLOSION, being no more liable to explode than an open cauldron

2—Less than ONE THIRD the amount of fuel is required to generate the steam obtained by other boilers of the same power

3—The cost of construction is reduced ONE HALF

4—They occupy but ONE THIRD the space of other boilers, and may be applied to any engine now in use

5—The expense of Furnace Grates will be incalculably lessened by the small amount of fuel required, and the manner of using it

The Company GUARANTEE the reality of the above advantages. Their conclusions are based on PRACTICAL RESULTS, many of these Boilers being now in use in and about this city. The inventor has but just succeeded after years of application in bringing this valuable invention before the public. It stands alone and independent in its merits and if it has the qualities claimed, which are undeniable the public will at once acknowledge its superiority over any other motive power.

Terms of sale made known on application at the office of the IRVING STEAM BOILER COMPANY corner of Broadway and Park place New York over the New Broadway Bank.

Circulars containing terms of sale &c will be forwarded by mail, if requested, address as above.

Sir James Duke addressed the Emperor in the following terms:

SIRE—We have the honor and the gratification to present before your Majesty for the purpose of presenting to your Majesty and to the French nation a declaration from the commercial community of the metropolis of the British empire, embodying the sentiments of amity and respect by which they are animated towards the French.

The circumstance which have called forth this declaration being fully stated in the declaration itself, bearing the signature of upwards of 4,000 of the merchants bankers and traders of London we have only to add ... in presenting to your Majesty a document that conveys at the same time a faithful representation of the feelings of the people of England ...

In conclusion, Sire, we beg to express our Imperial Majesty our fervent hope that, under your reign, France and England may be always united in a friendly and mutual beneficial intercourse, and that from the future of these two great ... results may ... favorable to the peace of the world and the happiness of mankind.

The Hon Baronet then read the following, which he afterwards presented to his Imperial Majesty.

"DECLARATION OF THE MERCHANTS BANKERS, TRADERS AND OTHERS OF LONDON.

We the undersigned merchants bankers traders, and others of London, ... consider ourselves called upon at this time publicly to express the concern with which we ... various channels of information ... an impression exists in the minds of the people of France that feelings of an unfriendly character are entertained towards them by the people of England.

We think it right, emphatically, to declare that we believe no such feelings exist on the part of the English people towards the people of France. We desire the welfare of both nations to be closely interwoven as well in a mutually advantageous and commercial intercourse as in common pursuits of improvement ... in all the ... of art and science.

Rejoicing in the reflection that nearly forty years have passed since the final cessation of hostilities between France and England we record our conviction that European wars should be remembered only to be deplored for the sacrifice of life and treasure with which they were attended—the hindrances they interposed to all useful enterprise and social advancement —the angry and ... feelings which they evoked in their progress—and the heavy financial burdens which they left behind them at their close—considerations which supply the most powerful motives to every individual in European community to avoid, and to oppose, by every means in his power, whatever may tend to cause the recurrence of such evils.

"We desire to remark, that if, in that expression of opinion on public questions which the press of this country is accustomed to exercise, it is found occasionally to speak with apparent harshness of the Government or the institutions of other States the same is not to be understood in a spirit of national hostility, or as desiring to give offence. We feel that with the ... de of government which ... think good to adopt for ... subjects to interfere, ... to desire that it may ... ances to all those interests ...

... declaration by proclaiming for the long continuance ... will between Frenchmen ... determination to do all in ... the same and our fervent ... of both nations may, ... each other in cultivating and in extending the ... vement for their common ...

... in English ...

... ched by this manifestation in the confidence with ... of the English nation has ... During the long stay I ... ured the liberty ... perfection of their institutions. Nevertheless, at one period last year I ... was marked with regard ... of France, and her sentiments towards Great Britain. But the good ... of a great people cannot be long deceived, and the step which you now take is a striking ...

"Ever since I have had power my efforts constantly tend to develop the prosperity of France. I know her interests; they are not different from those of all other civilized nations. Like you, I desire peace; and to make it sure, I like you, to draw closer the bonds which unite our two countries."

The deputation then retired.

If you would not have affection vitiate your ... unison, believe at once to what it ...

Never put off till to-morrow what ... do to-day.

Santa Anna, in Mexico.

[illegible] strange history and varied powers [illegible] again been called to preside over the [illegible] of his country, a country of vast natural resources, but signally lacking in the essential qualities and gristle of true manhood. The [illegible] of the people there have so long [illegible] between the kettle-drum of military despotism and the church bell of superstition, [illegible] utterly unfitted to establish [illegible] permanent and efficient institutions of government. Everything seems to be [illegible] of jostle—to day the quickened impulse forcing the people in one direction and [illegible] in another, until exhausted and bewildered they turn to SANTA ANNA in the hope [illegible] possessing sufficient stamina in himself [illegible] their affairs and lead them on to a re[illegible]able destiny.

[illegible] would be a relief to Mexico if even impe[illegible] could be conferred upon and exer[illegible] Santa Anna or any other person, even [illegible], the Emperor of France, should rule [illegible] rod of iron in all matters merely politi[illegible] he should give encouragement to la[illegible] protection to property. [illegible] people of Mexico, in their present rest[illegible] weakened state, are hardly worth con[illegible]—although their country if settled by [illegible] go ahead people would be a choice [illegible] the hope of any great benefit re[illegible] the recall of Santa Anna. He is [illegible] earnest man. He is not sound [illegible] and truthful, but believes more in deception and management than in [illegible] and honest dealing. There are [illegible] such men in the world, for the world's [illegible] either for good or evil to him. [illegible] Mexico arrived at Vera Cruz on the [illegible] of April, and it is said was received [illegible] great enthusiasm as the President of the [illegible].

[illegible] President disembarked, leaning on the [illegible] Commandant General and of the [illegible]. A triumphal arch was erected [illegible] grand plaza through which he passed [illegible] of the arch were inscribed the [illegible] His Excellency the President, Don Antonio Lopez de Santa Anna, 17th March [illegible] the other "Liberty, peace and or[illegible]." [illegible] cortege proceeded to the church, [illegible] solemn *te deum*, conducted the Pres[illegible] to the National Palace when Santa Anna [illegible] the commission charged with presenting the credentials of his having been [illegible] resident of the republic. Other com[illegible] of minor importance were afterwards [illegible]. During the night there were illu[illegible]tions, fireworks, and numerous serenades. [illegible] the following day Santa Anna published [illegible] of which the following is a transla[illegible]:

[illegible] ANTONIO LOPEZ DE SANTA [ANN]A TO HIS COMPATRIOTS.

[illegible] —On placing my foot on the shores [illegible] I salute them with the liveliest [emoti]on. My heart was palpitated with ten[derness] from the time when my eyes commenced [to] discover around our coasts the lofty mountains which indicate the proximity of a land in which everything is dear to my heart, in which [every]thing brings to me the dearest reminis[cences].

[illegible] had called me believing me useful to [illegible] from the state of anarchy and super[illegible] into which you had fallen and I have [obe]yed in responding to your summons. [Y]ou already have me on your soil, resolved to employ all my energies in an object of such essential importance. But if I have been quick [to c]ome at your call, it is from reckoning upon [the] efficacious operation. Of no use will be [the] resolution to consecrate myself entirely [to t]he salvation of the country if every one of [you] do not assist me co-operating with all his [abil]ity to the attainment of these ends.

Far from me is the thought of avenging an[cient] grievances. Those who have been my [adversa]ries may dismiss all fear. Everything is [for]gotten, and in touching the shores of my [coun]try I present to all the hand of friendship. [Nei]ther do I come to make any party prevail [but] only to raise the sacred standard of un[ion,] summoning to follow it all Mexicans, what[ever] be their opinions. Every man whose [heart] swells and is moved at the voice of his [country] is my friend, he is my companion. [Mexi]cans, too long have we permitted our[selves] to be deceived by chimerical ideas.—We [have lost] too much time in intestine dissensions [and] reality has come to drag us from such a [lamen]table deception. To what have we ar[rived at the] end of thirty years of independence? [Cast] your eye over the map of your country, and [you] will find that a great portion of your ter[ritory] has been lost. Examine the state of [yo]ur finances, and you will meet nothing but [di]sorder, abuse, ruin. What is your credit a[br]oad? What is the opinion which you enjoy [among fo]reign nations? Where is that army in [who]se lines I have had the honor to serve, that army which gained your independence, in which glory of having had no small part—that army which I led through the deserts, conquering difficulties which appeared insuperable to the [ent]er of the republic—at whose head I re[pell]ed an inimical invasion, and with which I [fou]ght—with little fortune, but not without [honor—y]our capital was occupied by the [enemy.]

Mexicans let us become ourselves again—[let us i]mprove the hard lessons of experience [and] repair the errors we have committed. [Wo]uld you have me to contribute my share to [th]is honorable reparation. Toil with me in [al]l that this glorious work, and we may [sti]ll have country, national honor, and a name [whic]h we will not be ashamed to own.

[Sold]iers! comrades in arms! Behold anew [at] your head your old general, him who has conducted you sometimes with glory, him who has not abandoned you in the moment of misfortune, him who bears on his body an honor[able mu]tilation, and who, with you, has ex[posed] his breast to the balls of the enemy in the days of your misfortunes. Listen to a voice which is not unknown to you. Follow your general and friend, let us restore to our noble profession the lustre of which it has been deprived; and although the relations of friendship which exist with all nations, and which I shall cultivate with all care, may not at present make your gallantry necessary, let us be ready should national honor require it, to prove in the face of all the world what the Mexican soldiers have always sheltered in their breasts.

Mexicans of all classes, Let the day of my return to the country be the day of general reconciliation, and let the joy which it causes me to find myself among you, exhibit itself in all assembled around the national standard, and let us bear all about with the same union and enthusiasm, as in 1821. *Viva la patria, viva la independencia.* (Long live the country, long live independence.) These are the wishes with which I present myself at your call, these the vows of your compatriot and friend.

ANTONIO LOPEZ DE SANTA ANNA.

Heroical Vera Cruz, April 2, 1853.

Santa Anna proceeded to the city of Mexico on the 6th, having been elected as President of the Republic for the 5th time by the votes of eighteen out of twenty states and territories.

☞ The 7 A M train from Boston, on the Vt. & Mass. road, on Monday, run off the track at Fitchburg, and the engine and baggage car were precipitated into the water. No one killed, and only the fireman slightly bruised. The escape of the passengers were perfectly miraculous. A foot or two more and they would all have been in the river. The cars were passing up the ascending grade just above the station at Fitchburg, when the engineer as he passed on to the bridge noticed that a switch was wrong. The train could not be stopped, and the locomotive, tender and baggage car were thrown across the bridge so as to crash it in. The structure and what was upon it fell a distance of ten feet into the river below. Four men who were on the engine had a very narrow escape from instant death. The tender doubled completely over upon the engine, confining the men in a space just large enough for them to escape crushing. They were rescued through a window in the cab. The passenger cars were not injured in the least, the coupling connecting the baggage and passenger cars having snapped asunder.

☞ The New York Daily Times yielding to a pressure from within as well as without, has enlarged its type area equal to four columns. It is now a large and handsome sheet and is conducted with great ability and tact and at a great expense, which only the most liberal patronage and the highest price of advertising will warrant. The Times comes into very close rivalry with the Tribune, and this rivalry is so spirited and so well sustained that although it may be fun for the public and the pride of those engaged in it, it cuts severely upon their publishers and upon the craft in other places, upon whom their monopolising spirit falls. The way the world goes it is likely to prove as hard a job to establish and maintain a country paper as to do so in the city of New York.

☞ The Charleston Mercury states that the United States District Court in that city is about to try the validity of the laws of South Carolina requiring the imprisonment of colored seamen. An action has been brought against the sheriff of Charleston, at the instance of the British consul, to recover $4000 damages for the alleged false imprisonment of Manuel Pereira, a colored British subject.

☞ The New York Times states that the immediate effect of the new Silver Coinage is to direct large amounts of the old coin to the Mints at Philadelphia and New Orleans. The Government is made the only buyer, by the provisions of the act. That is, outside parties cannot have their silver recoined for their own profit. The price paid at the Mint, $1,21 the ounce, has already induced $2,500,000 to be offered. Of this $500,000 was sold at New-Orleans. The remainder at Philadelphia. The Kentucky Banks shipped $400,000 to the last named point.

☞ The Mercury in speaking of the Van Buren influence in the administration remarks that the Barnburner men have triumphed in every appointment made in Maine by the President, and that there is not a Hunker officer in the state, with the seeming exception of Col. Haynes and his place was given him to prevent his able press from being turned against the appointments.

GODEY'S LADY'S BOOK for May, is a sweet number and has many attractions for home use among the gentle sex as well as good suggestions for the sterner sex. Its embellishments and its pleasant stories and its constant effort to elevate and interest and refine the home circle, make this periodical a favorite with all its acquaintances. The ladies will be particularly pleased to find in this number a colored plate of fashions.

☞ We return our thanks to Hon. Lorenzo Sabine, late of Maine, but now representing with great ability one of the districts of Massachusetts in Congress, for a copy of his admirable report to the U. S. Treasury Department on the Fisheries. Also to Hon. I. Washburn, Jr., for public documents.

☞ A telegram from Washington states that there are 100 applicants for the Consulship at Honolulu—among whom are nine ex-Governors. It takes ex-Governors to put in strong for office, and Doctor Hubbard will be hard to beat.

☞ The steam saw-mill of J. & G. P. Titcomb, ship builders at Kennebunk Landing, was totally destroyed by fire early on the morning of 17th inst. The property was worth about $3000—no insurance.

☞ So far, it is stated that there are about 500 applications for situations at the Boston Custom House.

☞ We return thanks to Carr's Express for papers received yesterday in advance of the mail.

☞ Our thanks are tendered to Hodgman & Co's Express, for papers received yesterday in advance of the mail.

The Galena Gazette mentions a report of a vein of lead seven feet thick, having been struck near Mineral Point, 100 feet below the surface. A vein was recently struck near Shellsburgh, 140 feet from the surface.

The foreign news is every way encouraging. Gold is arriving freely from Australia, and the price of Consols indicates a confident and buoyant tone in the English money market.

Of the one thousand men who formed the New York regiment in the Mexican war, only sixty are now alive, and but about forty are able to earn their living. This is a sad commentary on war.

About 350 packages of articles for the World's Fair, arrived at New York last week.

All Ready for Down East.

The entirely new and commodious steamer Daniel Webster will make her first trip from Portland to Bangor on Wednesday evening, April 20. The Webster was built in New York expressly for this route, to take the place of the Governor. She will be commanded by Capt. Joseph Farwell, whose reputation as an efficient seaman and a perfect gentleman is too well known to need further notice. The gentlemanly clerk, Mr E. Cushing, (formerly of the Governor) will be found always on hand and ready to do the polite by all who may come under his charge.

The Daniel Webster has proved herself upon trial to be a fast boat. She has masts and a full set of sails to use in case of accident to any part of her machinery. She has an extra engine and boiler entirely separate from all other machinery, to be used in case of fire or accident. Her length is 240 feet, breadth 34 feet, depth of hold 11 feet, and she registers 900 tons burthen.—There are 44 state rooms and 200 berths, fitted up in the most approved style, in fact, no pains have been spared to furnish her in a style of splendor unsurpassed by any boat north of the Sound. In addition to the splendid piano which the Boston merchants have given in honor of her name, the New York merchants have placed on board a splendid full length portrait of the distinguished statesman, with a fine view of Marshfield estate, 6½ ft by 8 ft 9 inches, the cost of which was about $600.

For times of starting see advertisement in another column.—Boston Journal.

NEW ORLEANS, April 16th.

General Arista, ex-President of Mexico, has arrived in this city, in a brig from Vera Cruz.

There was a rumor in Vera Cruz that Sonora had been again invaded by a party of troops to the number of one thousand, under the command of Count Parusose.

There was a great deal of noisy demonstration at Vera Cruz on the occasion of Santa Anna's advent in that city, with illuminations, fireworks, vivas, serenades, &c., in the evening. Santa Anna remained in the city four days, in the course of which a grand banquet was given to him by the citizens. He issued his proclamation from Vera Cruz, addressed to the Mexican nation, full of patriotic sentiments.

General Woll was on his way to Tamaulipas to look after Carvajal. Don Bernard Gavazas, one of the chiefs of the latter's troops, had been taken and shot as a traitor.

An escort of 1000 men had left the city of Mexico to conduct General Santa Anna to the capital.

The jug is a singular utensil. A pail, tumbler, or decanter can be rinsed, and you may satisfy yourself by optical proof that it is clean, but the jug has but a little hole in the top, and the interior is all darkness. No eye penetrates it, no hand moves over the surface. You can clean it only by putting in water and shaking it up and pouring it out. If the water comes out clean, you may judge you have succeeded in cleaning the jug, and *vice versa*.—Hence the jug is like the human heart. No mortal eye can look into its recesses, and you can judge only of its purity by what comes out of it.

HABITS. Like flakes of snow that fall unperceived upon the earth, the seemingly unimportant events of life succeed one another. As the snow gathers together, so are our habits formed. No single flake that is added to the pile produces a sensible change, no single action creates, however it may exhibit, a man's character, but as the tempest hurls the avalanche down the mountain, and overwhelms the inhabitant and his habitation, so passion, acting upon the elements of mischief, which pernicious habits have brought together by imperceptible accumulation, may overthrow the edifice of truth and virtue.—Jeremy Bentham.

MEETING OF JOURNEYMEN CARPENTERS.

The journeymen carpenters of Bangor, who are in favor of adopting ten hours as the appropriate hours of labor for a day's work, are invited and requested to meet at the Hall of the Mechanics' Association on THURSDAY evening, April 21, at 7½ o'clock, for the purpose of conferring upon the subject and coming to a conclusion.

SAVANNAH April 19th.

Capt Wm M Sawtelle of brig Coral committed suicide. He leaves a wife and children at Thomaston.

This celebrated medicine, skilfully composed as it is of the most healing balsams and penetrating oils, can never fail to cure almost every affliction that could be alleviated by an external remedy. Its superiority over all other Liniments is proven by the miraculous cures it performs, and by the great and constantly increasing demand. There has been sold within the past year more than THREE MILLIONS OF BOTTLES, and there can be but few persons found who do not bestow upon it the highest praise for the rare virtues it possesses. Nothing perhaps, since the creation of the world, has been so successful as an external remedy for all nervous diseases, as this wonderful curative. When applied, it instantaneously diffuses itself through the whole system, soothing the irritated nerves, allaying the most intense pain, and creating a most delightful sensation. Read the following remarkable cure which can be attested to by hundreds who were fully acquainted with the whole circumstance.

CHRONIC ENLARGEMENT OF THE TONSILS.

My daughter, when six months old, was taken with a swelling in the tonsils, which grew larger and larger, till when six years old she had great difficulty in swallowing her food. Every night watch was kept, fearing she would suffocate. The best doctors attended her but could give no relief. I took her to the most eminent doctors in the East, they said there was no help for her but to outgrow it. With a sad heart I returned home with her when she became so much worse that the doctors had to be called in again, they decided that the tonsils must be cut off as the only means of giving relief. My wife would not consent to this and she determined to try your Liniment which gave relief the very first application, and by a continued use she entirely recovered. She is now ten years old and fleshy and healthy as could be desired. Your Liniment is also the best in use for sprains, bruises, cuts, burns, headache, etc., and it will remove the most severe pain in a few minutes. It also cured caked udder in my cow in a few days. GEORGE FORD.

LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit which has lately made its appearance, called W B Farrell's Arabian Liniment, the most dangerous of all the counterfeits because his having the name of Farrell many will buy it in good faith, without the knowledge that a counterfeit exists and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H G Farrell, sole inventor and proprietor, and wholesale druggist, No 17 Main Street, Peoria, Ill now to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's thus—H G FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by H. F. Kinsell Oldtown French & Hamilton, Dexter. Geo. Parcher Ellsworth. J. G. Flaherty Houlton. And by regularly authorized agents through ut the United State.

☞ Price 25 and 50 cents and $1 per bottle.

French Zinc Paint.

GEO W EMERSON No 4 Smith's Block Bangor has just received direct from the manufacturers a large supply of their Patent White Zinc Paint, and is prepared to furnish the article at such prices as cannot fail to supersede the use of White Lead as a Paint.

Seventy-five pounds of this Paint will cover as much surface as 100 lbs of the best pure Ground Lead—is used in the same manner and with equal facility as the latter, while it far excels it in whiteness and durability, being unalterable by noxious gases and exhalations. The merits of this Paint have been fully tested in this country during the last three years and the most experienced painters have given it the preference over White Lead when the latter article was selling at from 25 to 36 per cent under its present market value.

Ladies and gentlemen are respectfully invited to call

☞ Consultations free

No Mercury given in any case whatever.

Drs CLAY and STOCKWELL are the most successful Practitioners in Maine, or in the United States in the treatment of

Diseases of the Lungs,

Liver, Kidneys Nervous system, Dyspepsia Spinal Diseases Piles Epilepsy Bronchitis, Asthma Dropsy Tumors Cancer Scrofula Diseases of the Skin Prolapsus Uteri Suppressions painful and imperfect Menstruation Fluor Albus and all that formidable list of diversified suffering which comes under the general head of Female Weaknesses

CONSUMPTION,

This dire disease to our race, which has baffled the skill and experience of the most learned of the old school in medical science can be

PREVENTED AND CURED

by Dr C's system of treatment which has been adopted with unparalleled success in the treatment of this fearful disease

His method of treating Diseases of the Lungs is peculiar to himself and very similar to that adopted by Theophilus Thompson M D F R S Physician to the Hospital for Consumption and Diseases of the Chest in England

Examinations of the Heart and Lungs, by Auscultation and Percussion

The extensive experience of Dr Clay in examinations of the Lungs and Heart, by Auscultation and Percussion in connection with an extensive acquaintance with Anatomy Physiology and Pathology enables him to determine the nature extent and precise location of the disease and whether *curable or incurable* In the treatment of diseases of the Lungs and Throat, Dr C has met with very great and to him as well as to others very surprising success His medicines are so combined as to be applied directly to the Lungs

During the last five years Dr Clay has made more than 8000 examinations of diseases of the Chest by Auscultation and Percussion—hence his extensive practical experience has given him a proficiency in that particular department, rarely possessed. april4 3wd&w

BAXTER'S
Victory Shoulder Brace.

THIS is an entirely new superior, and greatly improved article, which can be worn with or without the Suspender attachment It is light and elastic yet strong and equally adapted to the wear of either sex and so constructed as not to bind under the arm, which has been one serious objection to nearly all the Braces that have heretofore been used It is constructed upon anatomical and physiologic l principles and is highly approved of as being conducive to health and gracefulness of form and is far superior to the old excruciating articles formerly worn as Braces in regard to simplicity, durability and comfort

Symmetry of figure is almost entirely overlooked and neglected by every class of people A vast number of persons contract the habit which creeps upon them in a most insidious manner of stooping and allowing the weight of the shoulders to press forward upon the collar bones breast bone, and ribs which materially contracts the chest compresses the lungs heart and stomach the most vital organs of the human system and thus bring on some of the most *fatal diseases* such as pulmonary consumption heart disease, curvature of the spine, crooked and displaced shoulder blades, and that disagreeable sensation of sinking and gone ness at the pit of the stomach all of which might be prevented and the form kept in an erect position by wearing a well constructed and properly adjusted SHOULDER BRACE

Dr Baxter *would call particular attention to his BRACE and BELT for ladies* it being light, elastic and easily adjusted so as to support the weight of the under garments, and secure them in their proper position

The VICTORY BRACE is for sale at G F SARGENT'S, No 8 Corner Smith's Block

Safety Metallic Ladders
For Buildings, and a perfect Lightning Rod Combined.

THE subscribers having the agency of a new invention, Washburn, Holland & Co's Patent Metallic Ladders and Lightning Conductor for Bangor and vicinity, are now prepared to attach them to Factories Dwelling Houses, and Buildings of every description in the most thorough and workmanlike manner These Ladders are strong and durable, and with the improved Lightning Conductor attached, afford a most perfect protection from the ravages of fire either from lightning without or accident within They come recommended by a strong array of names of those who have given them a trial among which is that of Prof Silliman of Yale College, which is good evidence that this is a good invention and also forming a perfect lightning conductor On the ground of economy they are just the thing costing but 25 cents a foot without the rods, and 20cts with them, giving you a good permanent ladder that is always on the back of your house and of course not liable to be borrowed or lost, Those interested will please call and see them attached to a model of a building, and the manner of connecting the rods

American and Foreign Office

AGENCY FOR BUSINESS WITH U.S. PATENT OFFICE, *WASHINGTON*

No 22 State Street, Boston.

IMPORTANT INFORMATION TO INVENTORS The subscriber (late Agent of the U S Patent Office, under the Act of 1837) determined to [illegible] advantages in applying for patents [illegible] those offered inventors by others, has [illegible] arrangements whereby on applications prepared and conducted by him THIRTY DOLLARS [instead of *twenty* as paid back by others] will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection Caveats, Specifications, Assignments and all necessary papers and drawings for procuring patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, and [infringeme]nts of patents

[Inventors] can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, [an e]xtensive library of legal and mechanical works and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar Assignments recorded at Washington

R. H. EDDY,

Solicitor of Patents

During the time I occupied the Office of Commissioner of Patents R H Eddy Esq of Boston did business at the Patent Office as Solicitor of Patents. There were few if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

ANOTHER SCIENTIFIC WONDER!

GREAT CURE FOR

DYSPEPSIA!

Dr. J. S. HOUGHTON'S

THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC FLUID.

Prepared from RENNET, or the fourth STOMACH OF THE OX after directions of BARON LIEBIG the great Physiological Chemist, by J. S. HOUGHTON, M D, Philadelphia, Pa.

"I DIGEST" Such is the true meaning of word PEPSIN. It is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Purifying Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming a TRUE DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers and furnishing a complete and perfect substitute for it

This is NATURE'S OWN REMEDY for an unhealthy Stomach. No art of man can equal its curative powers. It contains no ALCOHOL BITTERS, ACIDS or NAUSEOUS DRUGS. It is extremely agreeable to the taste, and may be taken by the most feeble patients who cannot eat a water cracker without acute distress. Beware of DRUGGED IMITATIONS. Pepsin is NOT A DRUG

Half a teaspoonful of Pepsin infused in water will digest or dissolve Five Pounds of Roast Beef in about [tw]o hours, out of the Stomach

SCIENTIFIC EVIDENCE

The Scientific Evidence upon which this remedy is based is in the highest degree Curious and Remarkable. Call on the Agent and get a Descriptive Circular, gratis giving a large amount of Scientific Evidence, from Liebig's Animal Chemistry; Dr Combe's Physiology of Digestion; Dr Pereira on Food and Diet; Dr John W. Draper of New York University; Prof Dunglison's Physiology; Prof Silliman of Yale College; Dr Carpenter's Physiology &c, together with reports of cures from all parts of the United States.

DR. MORSE'S INVIGORATING CORDIAL!

FOR GENERAL DEBILITY, IMPOTENCY, INCONTINENCE, OR NOCTURNAL EMISSIONS, &c The astonishing success which has attended this invaluable medicine, for *Loss of Muscular Energy, Physical Lassitude*, and *General Prostration*, or any of the consequences of youthful indiscretion or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered. In fact as a remedy for the above complaints it stands unrivalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested and its virtues proclaimed by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS HEAD and MIND COMPLAINTS—the mental physic so long sought for and never before found, the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION EXCITEMENT, incapacity to study or business, loss of MEMORY CONFUSION thoughts of Self Destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Sensual Excess or evil practices. It has been said by some that these disorders, emissions, &c, were incurable. This however is not the fact

DR. MORSE'S INVIGORATING CORDIAL has, and is constantly curing these complaints relieving the mental and bodily incapacity of the unfortunate sufferer as the following testimony of the names received will conclusively show

Dr Woodward of the Massachusetts Insane Hospital writes of one of his patients being cured by using this cordial, thus — It gives me pleasure to inform you that one of my patients, while in Boston procured some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me says Dr W, "I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital but they had no effect. In the meantime he procured some of your Cordial which has affected a cure I am sure no other medicine would. I shall ever recommend it whenever an opportunity occurs"

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question and the proprietor could produce a host of them to conclusive testimony to show that the great reputation it enjoys was not accidently obtained but is firmly based upon its positive and apparent virtues. [illegible] are [illegible] the happy parents of healthy offspring, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended

THE MEDICAL JOURNALS

Ophthalmic Ointment,

OR

EYE SALVE.

For the various diseases of the eye and eyelids nothing has ever been discovered equal to this most [illegible]. Those painful and unsightly diseases to which the eyes are subject yield to the efficacious ingredients of which it is compounded. Granulation of the Lids, Inflammation and Ulceration of the Lachrymal Glands, Humors, Scurf Weakness of the eyes, Watery eyes, Rheum whether acute or chronic are entirely cured by it.

After a few applications the fever and soreness are removed, the swelling subsides, a fresh and healthy color succeeds the inflamed and irritated appearance, the crustations caused by the discharges of the diseased surface falls off and the strength health and beauty are restored

When once the lids and glands are in a healthy state the eye, no longer suffering in sympathy with its surrounding parts, recovers its energies and is able to perform its important functions without weakness or pain.

This salve is a mild preparation, designed expressly to suit the extreme delicacy which forbid the use of powerful applications to the organs of vision. It may be used with entire safety in all cases and seldom fails to cure. Many cases of Chronic Inflammation where the sight has been greatly impaired, have been entirely cured by this simple application. It is believed that the salve has in no instance failed to benefit. All who have suffered with sore eyes know how painful it is to be obliged to exercise the sight long and steadily when they are diseased. They will hail with joy anything that brings a remedy. This Salve invariably soothes and comforts the aching pain and will in a vast majority of cases effect a radical cure. Affections of the optic nerve are more difficult to manage than those of the outer surface, but [st]ill by the use of this valuable salve, they are greatly relieved and often entirely cured

This Salve is also recommended for Eruptions, Chilblains, Burns Cracked and Sore Lips Chapped Hands Scrofulous Sores, Pimples about the Face Piles Ulcers &c
